

# Action Project of Yuva Paryavaran Leader Students

**Abhishek Dubey**, 10<sup>th</sup> std  
Hermann Gmeiner School  
Varanasi

**Theme-** Water and Sanitation

**Objective-** The project will make the people aware and will make ghats and Mother Ganga neat & clean. It will help in decreasing the pollution level in Mother Ganga and will give employment to many people and will increase the number of visitors to the ghats.

**Need of the Project-** Varanasi is one of the oldest city of the world and its ghats are the main point attraction for the tourist and pilgrims. But nowadays our holy and cultural capital city of India is facing the worst conditions that it can. Varanasi have 80 ghats on its bank of mother Ganga and no ghat is clen and are very far from cleanliness. After passage of each day it is becoming more dirtyand no one is taking pain to clean it and look after it. Millions of tourist come to Varanasi each year and visit ganga ghat to watch ganga aarti but now the condition has become worse,it is not possible to sit and watch aarti without covering your nose due to the foul smell. This is playing an important role in falling down the numbers of visitors to ghats. It is making the tourist guide and many more persons to face unemployment.

**How you will achieve it-**

- 1) Plantation drive
- 2) Appointing a guard
- 3) Visiting ghats
- 4) Fitting beautiful rocks
