

Action Project of Yuva Paryavaran Leader Students

Annu Yadav, 10th std
Navneeta Kunwar Public school
Varanasi

Theme- Water conservation

Objective- To recycle the water

Need of the project- We need to do a project for increase water level:

- To decrease the scarcity.
- To get the fresh water.
- To decrease many diseases.
- To decrease water pollution.

To increase the natural environment

How you will achieve it-We use a large amount of water for domestic purpose like washing, cooking, cleaning house, bathing etc. We are not conserving it so the water level is going down .So to conserve the water we should use water only to satisfy our need and we should aware the people to reuse the domestic water. By doing this we can decrease the diseases and water scarcity.

- 1) Programme and activity in school.
- 2) Making banners and posters.
- 3) Aware the people in rural areas.
- 4) By advertising.
