

# Action Project of Yuva Paryavaran Leader Students

**Rahul Kumar**, 10<sup>th</sup> Std  
Navneeta Kunwar Public School  
Varanasi

**Theme** - Water conservation

## Objective-

- 1) To aware the people to save rain water.
- 2) To recharge ground water.
- 3) To promote the sustainable development of water for future generations.

**Need of the project-**I need help of my school and my friend for this project. As it conserve rain water and recharge the ground water. If People installed this method in their home it recharges the groundwater and they can use it for their purpose from bore wells and the supply of this area can supplied in the area where there is scarcity of water.

## THE GOAL AND OBJECTIVES:

- To aware the people to save rain water
- To recharge ground water

To promote the sustainable development of water for future generations

**How you will achieve it-** Water harvesting system was a viable alternative both socio-economically. People have in depth knowledge of rainfall regimes and soil types and developed wide ranging techniques to harvest rainwater, groundwater in keeping with local ecological conditions and their water needs.

- 1) Poster making competitions.
- 2) Skits, plays with school friends
- 3) Environmental camps with the help of school.
