

Action Project of Yuva Paryavaran Leader Students

Shreyansh Pathak, 8th std
City Montessori School, Kanpur road
Lucknow

Theme- Pollution

Objective- I aim at reducing the Thermal pollution in Amausi Lucknow and thereby reducing other types of pollution too like Air pollution and Water pollution by bringing awareness and planting trees at my end

Need of the project- At my level, I will try to bring awareness in various river side industries by visiting them and making them aware of the hazardous effects of their actions. And by planting as many trees as possible at the near-by areas with the support of my friends.

How you will achieve it- Through my project I aim at reducing the Thermal pollution in Amausi Lucknow and thereby reducing other types of pollution too like Air pollution and Water pollution by bringing awareness in the industries situated at the locations near Gomti River and planting as many trees as possible at the neighborhood and the areas near-by at my end with the support and help from my friends
