

Action Project of Yuva Paryavaran Leader Students

Vedant Anand, 11th std
Benhur Public School
Pilibhit

Theme- Waste management

Objective- To encourage the youth in our area for keeping the environment healthy.

Need of the project- This Project mainly focuses on the land pollution caused by throwing of garbage. This project will address the problem because this project deals with almost all the reasons for the land pollution.

This project is the benefit for the environment as well as for the people around us. If we would work in a proper and systematic way then we would be able to live in a clean environment. With this project there will be less land pollution and less health diseases. This benefit of the project will never last if work in a systematic and proper way. We can live in a pollution free environment through following measures.

How you will achieve it- This projects deals with mainly land pollution and how to address it. In it we have known the ways in which the land is polluted and how it is ruined. The main reasons of pollution were- throwing of garbage on the road, not getting it cleaned, irresponsible behavior of workers of municipality and the ignorance of Municipality towards the problems.

Ways has also been suggested in the project like- to start a group, make posters, advertisements etc., spread awareness, make targets to clean areas and make rallies.
