Your Report

- How did you integrate Environment/Sustainability in the subject that you teach?
- Which are the activities that worked best while doing Environmental Education (EE)/Education for Sustainable Development (ESD) with the students?
- What has been the source of these activities/action projects? Eg. Paryavaran Mitra Handbook, YouTube, other sources, etc.

- Action projects are detailed exercises requiring the collaboration of several people within and outside the school. Please explain the roles played by following stakeholders in achieving the objectives of action projects:-
 - Teacher/s
 - Principal
 - Non teaching staff of the school
 - Students
 - Parents
 - Others (Please add)

- What according to you has been the benefit of doing EE through Project Based Learning approach? Please give examples.

- What was your role in the whole initiative?
 - Implementation in the school
 - Outreach to whole school and broader community
 - Mobilization of Funds and other resources, information etc.

- What was your learning in the process of facilitating EE for the students? What learnings would you like to carry into the next years environmental work.

- How you managed the activities during the Covid 19 situation and established communication with your target audience.

- What challenges you faced in implementation of the project?

- Please add following with the report
 - pictures of students carrying out their action projects
 - teacher journal, lesson plans
 - videos etc.
